## Murine Cell Line - Kras G12D/Lkb1 -/-

**Murine cell line Kras G12D/Lkb1 -/- for studying Kras-driven cancers, such as non-small-cell lung cancer (NSCLC).**

LKR10 and LKR13 KrasG12D-mutant LUAD cells were transiently transfected with Keap1 CRISPR-Cas9 KO plasmid (sc-424513-KO-2) or Stk11/Lkb1 CRISPR-Cas9 KO plasmid (sc-423192).
