ParentCorps Friends School is designed to support children based on the wealth of evidence that young children's social-emotional learning is foundational for school success and lifelong health. Children learn to communicate their thoughts and feelings, develop a positive sense of self, build healthy relationships – and have fun!

Unique among social-emotional learning programs, Friends School not only supports children's social-emotional learning — but helps teachers to self-reflect and model their own social-emotional learning skills. This classroom-based program includes a variety of components (e.g. lesson with puppets, food review, activity, and exercise), with dedicated support to integrate programming in the pre-K classroom.

Lessons include:

- Making Friends & Sharing
- I Am Special
- Noticing Our Thoughts, Feelings & Body
- Solving Problems

This license permits authorized sites to use Friends School in one pre-K classroom. Licenses for additional classrooms can be purchased at a bulk discount.
