ParentCorps Parenting Program

ParentCorps Parenting Program License for Approved Continuing Sites

Parenting Program

ParentCorps

ParentCorps Parenting Program is designed to support families to promote children's early learning and development. Parents connect, share their experiences, and explore evidence-based parenting practices they may choose to incorporate at home, in alignment with their values.

This weekly, group-based program invites parents and caregivers into a predictable, welcoming space. ParentCorps facilitators are trained not only in the program, but in the core approach to seeing parents as partners. All content, logistics, and structure for meaningful family engagement provided.

This license entitles an approved* veteran site to run up to three cohorts of Parenting Program in school year 2023-2024.

**If your site did not receive an invitation to purchase this product your purchase may not be approved. Please contact us at info@parentcorps.org if you have questions.*
